My design aesthetic is...
timeless—I may embrace elements of a trend but will never let it define me.

One of the things I love most about working in Boston is... we have some of the finest professionals and craftsmen in the industry. I'm grateful to have the opportunity to work with the crew of craftsmen and artisans that I've assembled through the years.

Good design is... not about you; it's about your client. You need to take their ideas and blend them with your knowledge and expertise to create something that brings [a room] to life. You can never forget that this is their space—a reflection of them.

My Favorite quote about design is... by Robert A.M.

Stern—"The dialogue between client and architect is about as intimate as any conversation you can have, because when you're talking about building a house, you're talking about dreams."

My favorite room to design is... the bedroom. If you can make a client feel comfortable and at peace in that one room, you've achieved something. ■
